

AH, THE DAYS OF OLD - Downtown Bridgeport as it appeared in the 1950's, when the Arcadia Theater was in its heyday. Also notice the angled parking when Halsell Street was a two-lane thoroughfare. Consideration is underway now to have angled parking reinstated and only one lane of traffic in each direction allowed. The theater is undergoing major renovations now to allow it once again to be the center of downtown activity. - photo courtesy Mrs. Ernest Wright
